# Cross-Culture & First Nations

# CROSS-CULTURE & FIRST NATIONS

The “Cross-Cultural Innovations and First Nations” initiative has been established to help SU Australia better understand and intentionally address the challenges and opportunities that culture present for modern-day children, young people and families.

Spanning those with ancient Aboriginal or Torres Strait Islander stories, right through to the most recently arrived migrant, Australia is a land rich with different cultural stories. We are committed to exploring how we need to adapt, so that every Australian has a chance to discover life in God’s big story.
